

PEOPLE & THE ECONOMY

TELL US ABOUT...

1 What types of retail or services would you like to see offered in your area of the City?

2 What types of businesses would you like to see in your area of the City?

3 How do you feel the City's Business Development policies could be targeted?

4 Are there other statistics about our population and economy that you think need to be included in our plan?

5 What types of job opportunities do you feel the City of Charleston are lacking?

6 If you are a business owner, how can the City best support your growth and success?

—

Other comments or ideas about People & Economy?
(please feel free to write on the back of this sheet)

TELL US ABOUT... LAND USE & HOUSING

1 Do you agree with the current location of the Urban Growth Boundary, or should it be changed?

2 Gathering Places - what do you think of the current locations of the City's Gathering Places? Should there be others? Moved?

3 Neighborhood Districts - Are there other components you would like to see in our neighborhoods beyond only housing?

Other comments or ideas about Land Use & Housing?
(please feel free to write on the back of this sheet)

What changes would you want to see in our city to encourage you to ...

1 ...walk to more destinations ...

2 ...bicycle to more destinations ...

3 ...take public transportation to more destinations?

4 Would you choose to live in a neighborhood that has many street connections OR...

one that has only one way in and out with no connections

Why?

Other comments or ideas about Transportation Choices?
(please feel free to write on the back of this sheet)

TELL US ABOUT... NATURAL & CULTURAL RESOURCES

1 Are there any historic preservation concerns you have for the area of the City you live in?

2 Would you support additional buffers being required adjacent to wetlands and waterways?

3 Are there parks needs in your neighborhood or the City in general?

—

Other comments or ideas about Natural/Cultural Resources?
(please feel free to write on the back of this sheet)

1 If there were a nearby store in your neighborhood,
would that be a convenience to you?

2 Would a centrally located green space enhance the livability
of your neighborhood?

3 Would a diversity of well designed housing types within a
neighborhood make it feel more livable?

4 Would more walkable streets and sidewalks be an
improvement for your neighborhood?

5 Have you heard of New Urbanism or Smart Codes?
Do you have any comments about them?

—
